If the "Search" button does NOT work or you do NOT see the startup message:
Check for the presence of the iridiumserver folder: go to the root directory with the command`cd /`
Then enter the command `ls` to view the catalog

```
pi@raspberrypi /home $ cd /
pi@raspberrypi / $ ls
bin    dev  home           lib           media  opt   root  sbin     srv  tmp  var
boot   etc  iridiumserver  lost+found    mnt    proc  run   selinux  sys  usr
pi@raspberrypi / $
```
